

## Testimonial

I went through the 8 month program and discovered what a Challenge it is to find Freedom at Freedom Challenge... At the end of my 8 month class studies I was asked to join the ETP phase of the program. .. Oh boy, this phase of the program continues to challenge you in the application of the principles you were suppose to learn in your class time... Not only are you working on your own life controlling issues, now you are to help others with theirs while showing application of the principle being taught. This is where the real challenge for change and growth takes place... With the guidance of our Senior Staff members and Volunteers it all works out to give glory to GOD and that's the true process here at Freedom Challenge.

## New Class at HCF

At the end of February, a new class of 7 students entered the program. Two of the students have accepted Christ as their personal Savior. Praise the Lord!

Attendees of the Friday chapel are showing signs of great growth in their walk with Jesus. Many of the guys are opening up and are giving biblical testimony on what God is doing in their lives. They are sharing true testimony, not just "I'm doing okay."

The chapel service and our classroom time together are showing us person by person how God is working in everyone's lives and how He can touch anyone in the special way that they need. The more the guys share, the more they realize just how wonderful it is to have God in their life and that God will continue to be in their life.

**Remember to pray for our Friday chapels.**

## Class @ FC's Wichita Office

Come and join the learning experience on Monday nights from 6:30 to 8:00 pm. Don and Paul have set up a learning experience for anyone who wants to be better prepared to live life successfully by being grounded in biblical principles. The materials being studied are the same topics that FC students study in their weekly lecture classes (Group Studies for New Christians).

Growing personally enables you to help others whether that be a FC student, a friend or co-worker. At present, approximately 8 individuals get together each Monday.

## College Programs Available

Program Administrator Paul Hughes facilitated the installation regarding a 15 computer lab at Hutchinson Correctional Facility (HCF).

Ken Brown, VP for Innovation & Technology at Sterling is offering its CS101 (computer literacy) courses to inmates at the HCF.

The college has installed the courses on the server at HCF. Additionally, Sterling is open to offering other courses to the inmates.

## Volunteers

We enjoy receiving calls regarding volunteering. If you wish to volunteer, we need your help. A new volunteer, Jeanette James, is looking into teaching skits, human videos and drama basics. Elizabeth Clark is volunteering her time helping out in the administrative office.

# Released... Freedom Challenge Update

Spring, 2010

Thank you for your prayers and financial support!

## Freedom Challenge Finds Home

Plans are being laid for new transitional living program.

Thanks to you Freedom Challenge raised the \$40,000 for the down payment and was able to purchase the building on January 22, 2010. The administrative office is located at 1786 S. Seneca, Wichita, Kansas. This building is helping Freedom Challenge to meet it's goals of having a permanent office location and it provides space for the transitional living phase of our participants' lives. The mailing address is: 1786 S. Seneca, Suite 8, Wichita, KS 67213.

**Is anything too hard for the Lord?" (Gen. 18:14)**

### Renovation Update

The office renovations are underway. We are installing new ceiling tile, carpeting and other amenities to make the space more appealing.

Please come see our offices and what we are doing to improve them!

### Upcoming Event!
